Associates in Missions

**BRAZIL**  
Love God, Love People, Serve The World

## Inauguration Service & Church Opening

The first day of September started off with our pastoral inauguration service and official church opening. Our church's name is, Igreja Pentecostal Unida Do Brasil, Plano Piloto. Our Brasilia District Superintendent and our supervising missionaries (Michael & Ivonne Walmer) were there to bless the special occasion. All of our churches from the surrounding cities came out in full support. We had a wonderful time of worship, preaching, and fellowship!

Throughout the month of September, my wife and I had our regular church services each Sunday along with other district events that we supported. My wife spoke at our district ladies conference one day, and I spoke at our district youth conference one night.

Brother Walmer and I, flew together with one other person and two pilots, in a 9 seater plane, deep into the Amazonas to the city of Borba for a seminar trainings for ministry leaders and pastors. It was the most amazing airplane ride I've ever experienced in my life! The views of the land, the people's hunger for the word of God, and the positive impact on the lives of all the leaders that were encourage and equipped with tools to minister the word of God, was a rewarding experience.

One family wrote to us in a text message after visiting their house before leaving the city, "Thank you so much for everything pastor, you were angels in our lives." When we think we've experienced everything, God's got something else in His plans that will absolutely amaze us! There are many sacrifices that we all make for the call of missions, but moments like this reminds me how exciting it is to do God's work!
