

# FEBRUARY NEWSLETTER

At the beginning of the month, a new AIMER arrived. Once again this is an AIMER that had been a part of the last AYC trip to Japan. Glad to see people coming back, and expecting this year's AYC trip to also impact and call young people to missions.

Me and him have been doing a lot of walking and exploring around the island, and fellowshiping almost every night.

We have also been working on some projects around the church, including repairing our leaking baptismal tank, and printing/laminating photos to be displayed.

We have been seeing a lot of returning visitors at the church this month, including a few that are youth aged. We're believing that they will continue coming and become new members of the youth group.

Due to a local marathon, we changed our potluck service time to an evening service with a dinner potluck. We ended up having a really great turnout.

We've had a few services with a strong presence during prayer and worship, and many of our youth have been getting touched by God. I know he's working in their hearts, but continue to pray that they chose God over worldly influences.

We also had a couple holy ghost infillings.

Bro. Hosmer spoke during our youth service this month, sharing some of his personal testimony. Afterwards Aran, the youth from the ramen restaurant, decided he was ready to become baptized.

I'm also still teaching Bible studies to him when his schedule allows it.

Leading worship for youth service with a few of the boys, I think Aran had a lot of fun being part of the praise team.

Prayer over the youth during one of our normal services.

Aran's baptism. I know this was a big step and decision for him personally. Proud of him and expecting God to continue working on him.
