

# The Emersons in Honduras

Gloria a Dios!

Preaching in Santa Rita

The Mission has Wheels

## Solo Se Detiene Para Predicar

Greetings in the name of Jesus! This month, our travels took us to San Pedro Sula. We were privileged to preach in the nearby pueblos of Progreso and Santa Rita. Many lives were touched. We enjoyed the vibrant church culture of those congregations. While we were in Santa Rita, we walked down to the Humuya River (pictured above) in which Pastor Ricardo Licona (el presidente de UPCI Honduras) was baptized many years ago.

Before we left San Pedro, we were able to buy a small SUV. This vehicle is a blessing and has greatly improved our ability to minister throughout the country.

Our kids make friends wherever we go!

## Revival Continues

Back in Tegucigalpa, we ministered at Pastor Roney Escoto's primary campus. We had a tremendous move of the Spirit and one was filled with the Holy Ghost; many were earnestly seeking. After service, a young lady decided to be baptized in the wonderful name of Jesus Christ!

Andrew was invited to spend the day working at the campgrounds of the UPCI Honduras. It has been unused for many years. The 50-acre campground is in great disrepair, but the people have hopes of utilizing it in the near future. Hondurans do not have access to many machines in order to renovate such a large property, but they have machetes, a strong work ethic, and a God-given vision.

This month we are grateful to have witnessed the unity, the servitude, and the fortitude of these great Apostolics. We are excited to continue working with them!

Blessings, the Emersons
