WARSAW, POLAND

LOOK WHAT THE LORD IS DOING...

God is doing so many great things within our church here in Warsaw. We are steadily growing and some are gaining a desire to become more involved with the church. We have many weekly bible studies going on throughout the week and we had 1 baptized in Jesus Name during a bible study in her home. God is moving and Revival is here!

We are currently working towards obtaining a "miracle space" to rent for our weekly services. Many inquiries have went out and we have some promising doors set before us. Pray for AMPers, Bro. Jackson and Sis. Alyssa Brooks as they continue to lead this church that God would give them wisdom, direction and favor moving forward. Greater things are coming and we are excited for all that God is doing and all that He will doing moving forward.

Deeper Connections

We are still continuing our weekly Game Nights and English Club and both events are giving us more opportunities to connect with people in our community and share God's love with them. We continually have people tell us how they have attended other events in the city and ours is the best. People are becoming more and more curious about what it is they are feeling when they join us. God is moving and drawing people each and everyday. God is faithful.

We have had the opportunity to meet with a couple of our friends here in Warsaw that we have been connected with for many years. It is so amazing that God has allowed us to stay connected with them. Each of these individuals were connected with us through a desire to want to grow and work on their English and God has allowed these connections to grow into beautiful friendships.

We have the opportunity each and every day to connect with individuals from many different walks of life, different cultures, backgrounds and even beliefs. It is so beautiful to watch God allow us to connect with them and find common ground even with all of our differences. God has truly blessed our team with great favor in this city. There is a deep hunger all around. As we connect with these people, more and more opportunities are given to talk about God.

Myself and another AIMER had the opportunity to sit in someone's home and take a look at their childhood bible. Though the Bible was in a language I did not know, I noticed the pages were filled with pictures of different stories and many of them appeared to be worn as if it had been read many times. This individual began to flip through the pages and ask questions about different stories and wanted to know more about what they were reading. They were not religious, but have expressed their openness toward God. In the back of the Bible there was something written that stated "One Lord. One Faith. One Baptism." We have since had many more conversations with this individual and they are continuing to grow more and more curious about who God is. Pray with us over our friends here in Warsaw that God would give them their own personal revelation of who He is. That He would move in their lives in a way that cannot be denied that God is with them. That they would know of the freedom, deliverance and victory that can only be found in Jesus.
